The 129th Annual Show 2016

SHOW SCHEDULE

Saturday & Sunday
10th & 11th September 2016

Barleylands Farm Centre & Craft Village
Barleylands Road, Billericay, Essex CM11 2UD
Our 129th Annual Honey Show will again be held at Barleylands Farm Centre & Craft Village as part of the Essex Country Show. The site houses permanent craft outlets and refreshment facilities as well as plenty of farm animals. The weekend of the 10/11th September will see many activities and entertainment over the two days, including a Steam Fair and vintage farm vehicles, 150 craft stalls, food stalls, rural crafts and many arena events.

The public’s interest and fascination in bees continues, so this County event presents an ideal opportunity for all EBKA beekeepers to show the public the quality and use of local honey, the versatility of beeswax and the wonderment of honey bees.

Please enter as many classes as you can to make this a memorable show. Make a commitment and return the Honey Show Entry Form today. The Show Classes with prizes and awards are similar to previous years.

Please support the Show at this exciting venue by entering the Classes as well as bringing along lots of visitors or, better still, volunteer as a helper and get free entry. Our setting up day will be Friday 9th September, and as exhibits need to be judged on this day also, prompt delivery of your exhibits is crucial.

See you there!

**RULES FOR ENTRY FOR EBKA ANNUAL COUNTY SHOW**

1. Open to members of the Essex Beekeepers’ Association only.

2. Exhibits in the gift classes will either be donated to St Francis Hospice or given to support the show. Your own labels must be supplied (but not stuck on jars and sections).

3. Exhibitors shall not take more than one award in a class where a multiple entry is made.

4. A novice is an exhibitor in one of the 3 novice classes who has not before won a prize in the Essex Show for the specific novice class entered i.e. clear honey, set honey or wax.

5. The upper age limit in junior classes is twelve years.
When a Class requires the staging of more than one exhibit of the same kind the containers (when used) and the exhibits shall be matching in all respects, however mould marks are not relevant.

Extracted honey must be exhibited in clear squat glass jars of British Standard pattern, which must contain a minimum of 454g of honey, and must be closed with standard lacquered commercial or white plastic screw caps. Frames for extraction must be in a bee-tight showcase without lacing or edging. Sections to be shown in cases, glazed on each side, laced if desired to show a clear central area of 80mm x 80mm.

Mead (classes 14 & 15) is to be made of honey and water by a process of fermentation and exhibited in clear glass bottles having a capacity of 75cl and free from any lettering and other marking. Stoppers must be flanged - either natural cork, or cork with tops of white plastic.

Melomel & Metheglin (classes 42-45) to conform to the same display rules as mead (see Rule 8) but a label is to be affixed by the exhibitor just below the shoulder of the bottle listing the contents and whether sweet or dry. No alcohol may be added.

Neither alcohol nor flavouring may be added to mead, but additions such as acids, nutrients and tannin may be used.

Only labels supplied by the Assistant Show Secretary must be fixed by the exhibitor to their exhibits. Labels must not be altered by the exhibitor. Labels should be fixed to jars and bottles to leave about 12 mm between the label and the bottom of the vessel. Show cases, section cases, and cut-comb containers shall be labelled in the top right hand corner of the transparent face of the case or containers. A duplicate label shall be fixed to the frame or section. For wax and confectionery, labels shall be fixed to both exhibit and container or plate. Only classes 38, 39 and 46 are to be labelled as for sale (see rule 15).

Points will be awarded as follows: First prize - 6, Second - 5, Third - 4, Very Highly Commended - 3, Highly Commended - 2, Commended - 1.

Delivery of Exhibits:
All unaccompanied exhibits must be sent in a box, securely packed, to reach 44 Ascension Road, Collier Row, North Romford RM5 3RT before noon on Thursday of the Week of the Show. The exhibitor's name, address, and list of contents must be marked inside the lid of the travelling box.
Accompanied exhibits must be delivered to the Beekeeping Marquee at Barleylands between 9am and noon on the Friday immediately preceding the show.
In all cases collection of the exhibits after the Show is the responsibility of the exhibitor.

Posted entry forms should be delivered to the Assistant Show Secretary by first post on the Saturday immediately preceding the Show. Posted entries delivered late, or those handed in at the Show, will be subject to an additional £2.00 late entry fee.
All fees are to be paid only in cash at the time of delivering the exhibits.

All labels in Classes 38, 39 & 46 must comply with the relevant legislation relating to sale to the public. See "Labelling Regulations” overleaf

Classes 16, 17 and 18 are only for beekeepers who have kept bees for less than five years.

Confectionery to be covered with clear plastic covers obtainable from the Hon. Sec. or Assistant Show Sec and provided free of charge (but not to be taken away).
Labelling Regulations

The regulations have been interpreted slightly differently by Trading Standards depts. in some areas. For the purpose of this show all classes requiring the Exhibitor's own labels must comply with the following requirements which must all appear on the same label:

1) The word HONEY which may be prefixed with the type of honey and/or area of origin. e.g. New Forest Heather Honey.
2) The metric weight must appear – figures to be at least 4mm high for 454 & 227g weights. If the imperial weight is shown it must be in close proximity to the metric and be less prominent. The 'e' symbol if used will be ignored.
3) Your name and address must appear on the label.
4) The country of origin must be shown on the label. e.g. 'Produce of the U.K' The country name alone at the end of your address is not sufficient.
5) A 'best before' date must appear on the label (suggest 2-5 years) or an indication of where it can be found e.g. for 'best before' see base of jar. If the date is given in full i.e. date, month and year there is no need for a lot number.

HONEY FRUIT CAKE – Classes 22 (Adult) and 26 (Junior)

NOTE: This recipe will make two 6in.(15cm) cakes- select one for your entry and enjoy the other!

- 8oz (225g) margarine
- 4oz (125g) honey
- 12oz (350g) self raising flour
- 12oz (350g) mixed dried fruit

5oz (150g) soft light brown sugar
3 eggs
4 Tbsp (60ml) milk
Grated rind of half a lemon or orange
Flaked almonds to sprinkle over top

Put the honey, sugar and 2 Tbsp of milk in a basin and stand in a warm place until it has melted and the sugar dissolved. Allow to cool before using.

Cream the margarine with the sugar and honey mixture and beat well. Beat the eggs and add them gradually, beating well. Fold in the fruit, grated rind and the sifted flour. Add milk as required to give a soft dropping consistency.

Place the mixture in two greased and lined tins, sprinkle a few flaked almonds on the top and bake at 140°C or 275°F for 1¼ hours or a little longer. Allow to cool for about 10 minutes then carefully turn on to a wire rack to cool. 1

HONEY NUT COOKIES – Classes 23 (Adult) and 27 (Junior)

- 4oz (125g) margarine
- 4oz (125g) demerara sugar
- 1 egg, beaten
- 1 Tbsp (15ml) honey

8oz (225g) Self raising flour
pinch of salt
2 oz (50g) chopped mixed nuts

Cream the margarine with the sugar, then beat in the egg and honey. Sift flour and salt together, gradually beat into the creamed mixture, add the nuts and mix to form a soft dough. Roll into balls the size of walnuts. Place on a greased baking sheet well apart and flatten slightly with a wet fork. Bake for about 15 mins. at 180°C or 350°F or gas mark 4. Exhibit six cookies

HONEY SANDWICH – Classes 24 (Adult) and 28 (Junior)

- 6oz (175g) butter or margarine
- 1 Tbsp (15ml) honey
- 4oz (125g) castor sugar

6oz (175g) Self Raising Flour
3 medium eggs
Honey Butter filling –see below

Grease and line two 7in. (17.5cm) sandwich tins. Cream the margarine with the honey and sugar until light and fluffy. Gradually add the beaten eggs and mix in well. Carefully fold in the sifted flour and add a little water, if required, to make a softer mixture.

Divide the mixture between the two tins and smooth over the tops. Bake in the centre of a moderate oven, 180°C or 350°F until golden and springy to the touch. Cool on a wire rack.

Honey Butter filling: 2oz (50g) butter or margarine, 3oz (75g) icing sugar, 1Tbsp of honey.

Cream the butter, beat in the sifted icing sugar until smooth then beat in the honey. When the cake is cold, sandwich together with the filling. Do NOT dredge the top with castor sugar.
APRICOT AND HONEY SCONES – Class 25

1lb self-raising flour  
4 tsp baking powder  
1 egg beaten  
Semi skimmed milk

2-3 tbsp Beekeeper’s own honey to taste  
4 oz soft margarine  
2 oz chopped apricots

Warm the honey and 2 fluid oz of the milk over a low heat until dissolved. Cool. Pour into a measuring jug and add the beaten egg and sufficient milk to make up a full 9 fluid ozs of liquid. Sieve the flour with the baking powder and rub in the margarine. Stir in the chopped apricots. Make a well in the centre and pour in the liquid. Mix with a round bladed knife to form a soft dough, knead until smooth. Roll out ¾ in thick and cut into 15 rounds using a 2¼ in fluted cutter. Place close together on a lined baking sheet and brush tops with milk. Bake in a pre-heated oven at 200ºC, 180ºC if fan or gas mk6 for 10-12 mins until golden top and bottom. Leave to cool.

HONEY FUDGE – Class 29

1lb (450g) sugar  
1 small tin (170g) evaporated milk  
2oz (50g) butter or margarine

2 dessertspoons of English honey  
1 tsp (5ml) vanilla essence

Mix ingredients well. Bring to the boil and then raise the temperature very slowly to 115ºC or 240ºF stirring carefully all the time. Remove from the heat and stir until it begins to thicken, then beat well and pour quickly into a buttered tin. Cut when firm.

HONEY CINDER TOFFEE – Class 30

150g granulated sugar  
1 tbsp water

50g English honey  
1 ½ teaspoons Bicarbonate of Soda

Spread sugar over base of saucepan, add honey and 1 tbsp water. Bring to the boil while stirring gently to allow sugar to dissolve. Once temperature reaches 150ºC (300ºF) (hard crack), quickly add bicarbonate of soda and stir vigorously until just mixed in. This mixture will be very hot and will burn if in contact with skin. Pour the foaming mixture into a silicon mould about 15x15 or 20x20 cm. Let it stand without disturbing until cold (a few minutes). Break into pieces and keep in an airtight container.

HONEY AND MALT WHOLEMEAL LOAF – Class 31

1lb (450g) strong wholemeal flour  
1 dessertspoon English honey  
1 200mg Vit C tablet (crushed)

2oz (50g) fresh yeast  
1 level tsp sea salt  
3/4oz (20g) veg. lard  
7fl.oz (200ml) warm water

Crumble the yeast into the warm water and add the malt and Vit. C. Thoroughly mix. Crush the sea salt and rub into the flour with the vegetable lard. Make a well in the flour. Now add honey to the yeast mix. Add this liquid to the flour and mix. Knead the dough - adding a little more flour if too wet, or a little more warm water if too dry. Divide the dough into two equal parts (preferably by weighing). Shape each piece and place into greased 1lb loaf tins. Cover tins with lightly oiled polythene and leave in a warm place to rise. Whilst dough is rising, preheat oven to 230ºC or 450ºF. Allow dough to rise until the crest of the dome is about 1in. (25mm) higher than the tin.

Bake for approximately 35 minutes checking after 20 minutes that top is not browning too quickly (turn down heat if it is). Loaf is ready when it turns out of tin easily and has a hollow sound when tapped on its bottom. Choose the better of your two loaves for your entry in the Show (if you can't make up your mind, make two entries and enter them both).

NOTE: If fresh yeast is not available then use dried yeast according to the directions on its packet. Different types need different treatment. Vit. C is not essential but it helps the fermentation.
