Labelling Regulations

The regulations have been interpreted slightly differently by Trading Standards depts. in some areas. For the purpose of the this show all classes requiring the Exhibitor's own labels must comply with the following requirements which must all appear on the **same** label:-

- 1) The word HONEY which may be prefixed with the type of honey and/or area of origin. e.g. New Forest Heather Honey.
- 2) The metric weight must appear – figures to be at least 4mm high for 454 & 227g weights. If the imperial weight is shown it must be in close proximity to the metric and be less prominent. The 'e' symbol if used will be ignored.
- 3) Your name and address must appear on the label.
- 4) The country of origin must be shown on the label. e.g. 'Produce of the U.K' The country name alone at the end of your address is not sufficient.
- 5) A 'best before' date must appear on the label (suggest 2-5 years) or an indication of where it can be found e.g. for 'best before' see base of jar. If the date is given in full i.e. date, month and year there is no need for a lot number.

OTHER PRODUCE FOR SALE:

Beeswax, Candles and Polish, etc. must comply with the statutory warning labels as appropriate to the product.

It's much easier to collect your exhibits if you volunteer to help at the show.

Approximately 40 volunteers are needed to ensure all the information stands, sales tables, etc are adequately manned. It's an extremely interesting day with friendly beekeepers and hordes of the public eager to learn about bees, honey and wax

Contact your Divisional Secretary and let them know that you are willing to help.
