

Essex Beekeepers' Association

Harlow Division – November 2019

MONTHLY MEETINGS

At our February meeting we had a very interesting speaker Khalil Attan, from Epping Division, who talked about Queen Rearing for All. He explained how he raises his own queens to get rid of undesirable traits eg. He wants docile bees, early brood build up, no disease. It is very important to know the bee developmental timeline.

Upcoming:

- 5th March – EFB and the Hive Spring Clean – Salma Attan
- 2nd April - HBKA Apiary and the Beginners Course

News

We have been continuing re-building our new course with our exciting new venue; <https://harlowbees.co.uk/getting-started/beekeeping-course/>

We have started planning the 2021 Essex conference (and associated duties for that year); it's all very nebulous just now, we know what we would like to do, we just have to see if we can book the right venue and the right speakers.
